User Actor Aaron wants to watch Captain Marvel this morning. As usual, he checks last minute and tries to get a matinee price. He goes to tixter.com and is greeted by:

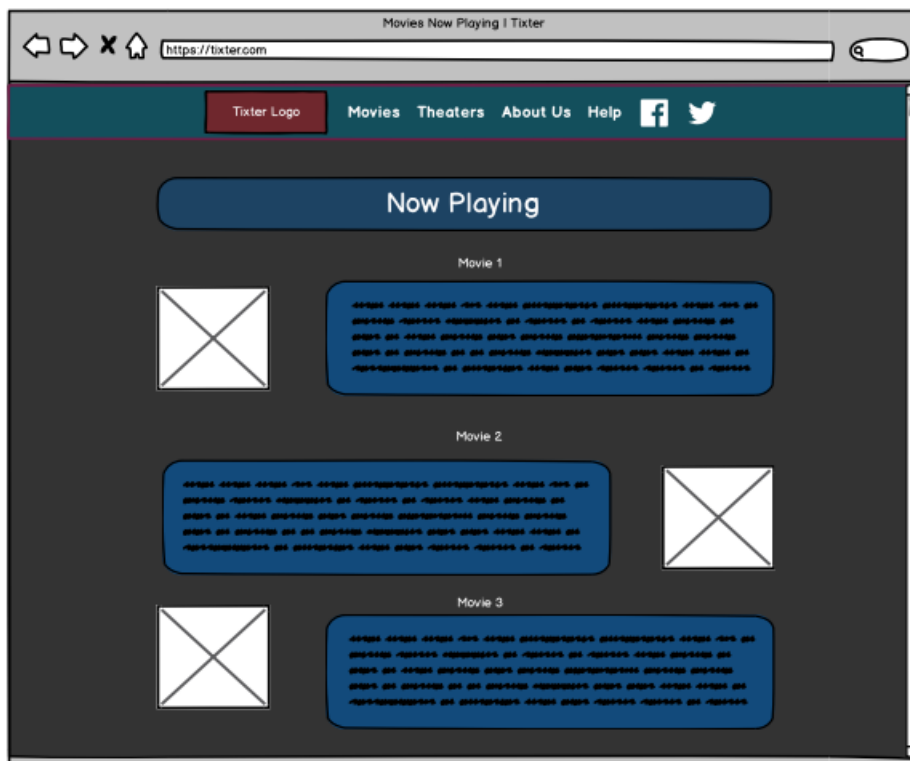

He clicks on the movie drop down bar and selects "captain marvel." Then he sorts by price and starts the search by clicking on the play button. The page refreshes to:

Student Sammy wants to check the movies currently airing at the local theaters.

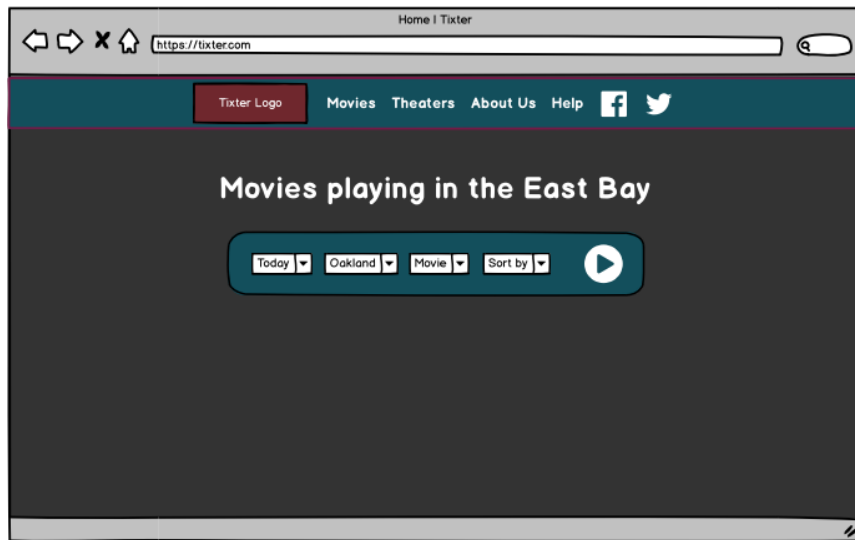

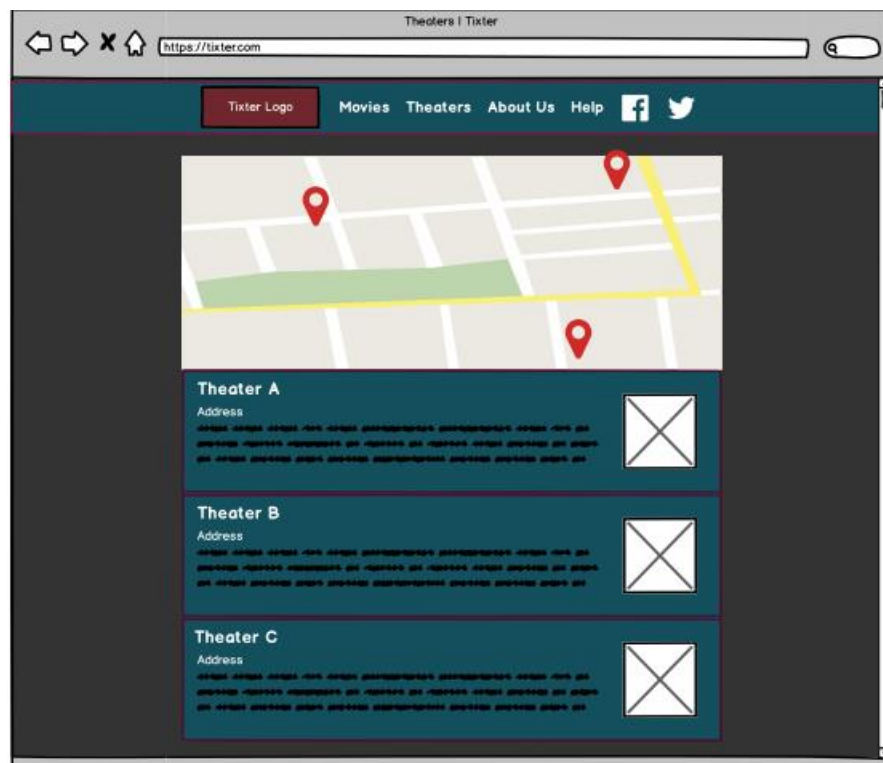

After clicking "Movies":

Clicking on a movie title or picture redirects Student Sammy to the home page with a search for that movie.

Günter from Germany wants to check the map of all the theaters in Oakland.

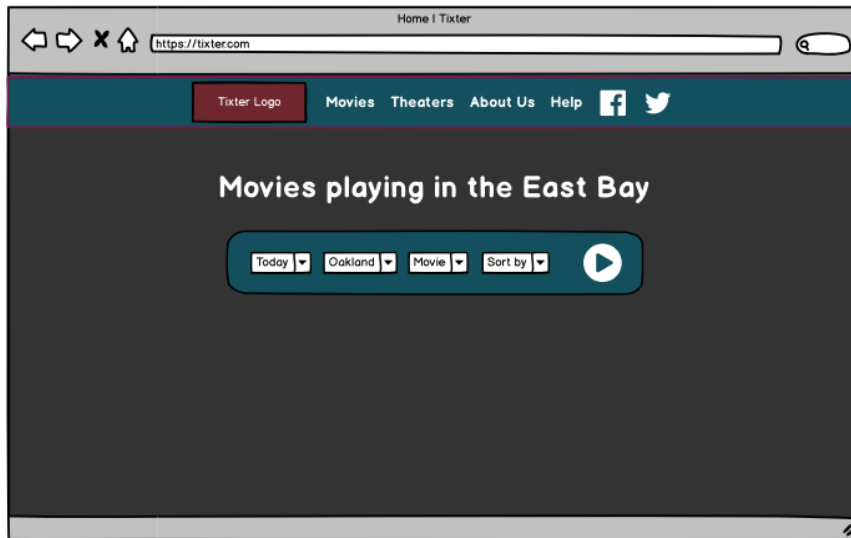

After clicking "Theaters":

Clicking on the theater or its icon will redirect Günter from Germany to the home page with a search on the theater selected.

# STRETCH FEATURES

Günter from Germany now wants to pick a movie

After selecting "movies" from the top menu, he is greeted with:
